

HL Horizontal Loader

Automatic Side Load Case Packer

From cartons to caulking tubes, the HL Horizontal Loader is the most compact and versatile loading system available. The HL efficiently packs cylindrical or round objects, maintaining horizontal orientation, as well as small or odd shaped cartons and blister packs that can be difficult to collate. Integrated with our reliable E-Series case erectors, Combi's patented case placement system accommodates a diverse range of case types and sizes. The HL packs the widest range of products on a single compact system, offering fast changeovers and minimal downtime between product runs. The Combi HL is available with product collation solutions tailored to the specific needs of your product.

Features:

- Versatile product collation and orientation
- Compact modular design
- Quick changeovers
- Full guarding with safety interlocks
- Open access to machine internals
- Easy load case magazine

Options:

- Intrinsically safe or washdown electrical packages
- Integrated with High-Speed SCE Servo Case Erector
- Servo downstacking collation
- Progressive upstacking collation
- Custom designs for special applications

Horizontal Loader

Features and Specifications:

- Heavy duty welded tubular steel construction
- Lifetime warranty on structural framework
- Open access for easy changeovers
- Easy load case magazine
- Right or left hand execution
- Available in multiple footprint configurations to fit any product flow
- Allen Bradley SLC 5/03 PLC
- Lockout / tagout safety disconnect
- One year warranty
- Replacement parts ship within 24 hours

Electrical Service:

230 volt / 3 phase standard

Air Consumption:

80 PSI, clean air supply (consumption is product dependent)

HL Applications:

- Cartons
- Tubes
- Blister packs
- Cylindrical products

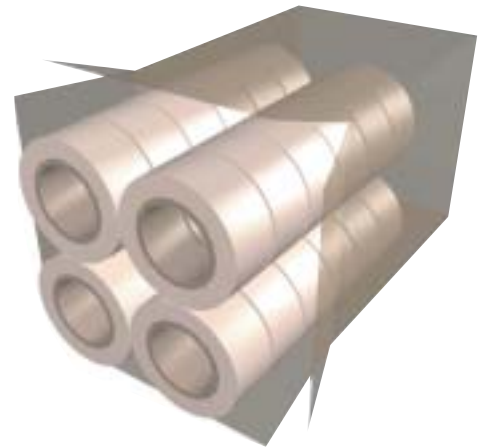

The HL Horizontal Loader

is designed to pack a variety of items that tip easily or pack more effectively when horizontal, including cylindrical products, multi-packs and cartons.
