

2-EZ[®] HS/2-EZ[®] SB RTE

SANITARY CASE ERECTORS, BOTTOM TAPER

2-EZ[®] SB RTE
Sanitary Case Erector

While there are currently no formal government agencies regulating packaging machinery, food producers are taking an active role in assigning the highest priority to the safety and purity of their products through the entire food manufacturing process, including their end of line packaging.

Combi has manufactured their line of side belt, high speed case erectors in a sanitary RTE design for these washdown processing environments.

STANDARD FEATURES

- Up to 20 cases per minute (case length dependent)
- EZ load, walk-in powered case magazine
- Pneumatic or servo carriage assembly
- Allen-Bradley™ electronic controls and operator interface
- Dual side belt drive case indexing
- Self-cleaning vacuum system with air purge
- Right hand or left hand execution
- Easy access for maintenance
- Case hold down plate with cut out facilitates easy tapehead removal
- Positive four flap closing
- 3M™ AccuGlide™ tape heads

RTE SANITARY CHARACTERISTICS

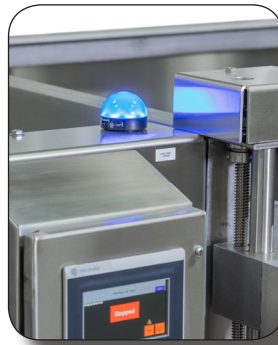

Smooth, Stainless steel frame and main internal structure, USDA approved. Exposed anodized aluminum components with chemical resistant coating. Constructed to ensure that the equipment can be effectively and efficiently cleaned and sanitized over the lifetime of the equipment. Open design provides easy access for inspection and cleaning.

Stainless RTE guarding; Nema 4X electrical and pneumatic enclosures with water shedding sloped or pitched tops and shut offs.

Stainless pointers and scales for case size settings.

Limited use of threaded components and no tubing. Continuous welds.

Food grade silicon vacuum cups. Stainless steel cylinders.

Stainless gear box with food grade lubricant.

Optional sealed indicator beacons.

Toolless removal of side belts to facilitate inspection and cleaning.

Stainless, totally enclosed motors, fan cooled (TEFC)
