

# DP DROP PACKER

WITH PULL NOSE CONVEYOR

Today, flexible packaging, stand up pouches, pillow pouches and transparent packaging are the fastest growing segment of packages due to their low cost to produce and distribute, strong aesthetics, and consumer convenience.

Addressing the challenges of packing flexible bags, the well known DP can be equipped with a flexible package shingling system. Flexible packages are automatically fed onto a belt conveyor that extends and retracts - shingling the product as it lands onto a bay door or, lands in the case one layer at a time, in a pre-determined pattern. Once the product has accumulated, the bay doors open releasing the product into the case. Once the case is filled, the case exits and a new case is staged for packing.

# DP PULL NOSE

## STANDARD FEATURES:

- Integrated E or EZ series case erector
- Right or Left Hand Execution
- Self-cleaning vacuum with air purge
- One piece tubular welded frame with lifetime guarantee
- Pull nose servo drive product delivery system
- Bay door style packing head
- Guarding package with hinged doors and safety interlocks
- Two piece 12" wide product conveyor with floor support, side guides, drive and controls
- Heavy duty case lift assembly with T-rail case containment
- Incline case conveyor with floor supports, side guides, drive and controls
- Allen-Bradley™ electrical controls and operator interface

## ELECTRICAL SERVICE:

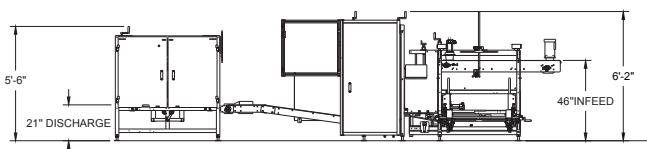

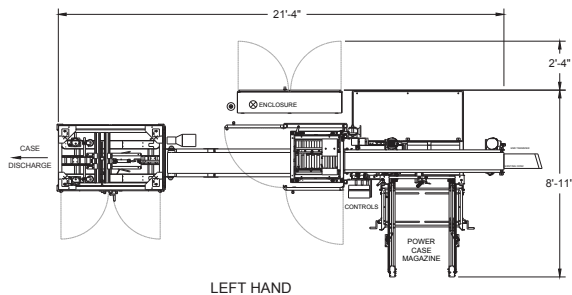

- 240v / 3 phase / 60 Hz / 20 amp

MODEL	CASE SIZE MIN (LxWxH)	CASE SIZE MAX (LxWxH)	SPEED: CPM*
DP / E2500	8½ x 4¾ x 4" (216x121x102mm)	19 x 13½ x 18" (483x343x457mm)	10
